

## COLOR KEY FOR REGULATION MAPS

	<p><b>Prohibited by the OLB Statute.</b> The regulations highlighted in red typically contain requirements that are prohibited by the OLB Statute (either explicitly or implicitly), such as requiring other states to grant reciprocity to Mississippians before the Mississippi licensing board at issue will grant reciprocity to out-of-state licensees.</p>
	<p><b>Inconsistent with the OLB Statute.</b> Provisions highlighted in yellow often track the OLB Statute's provisions, but impose additional requirements not contemplated by the OLB Statute. For example, a licensing board may require an applicant to prove competency in a given profession by submitting signed verification letters from the head of the out-of-state licensing agency confirming his qualifications.</p>
	<p><b>Generally consistent with the OLB Statute.</b></p>
